Cogent Colocation

The Cogent Advantage

Colocate your business critical equipment in one of Cogent's state-of-the-art data centers, each of which is connected to our all-optical Tier 1 IP network. Cogent Data Centers are known for providing an environment where **connectivity**, availability, **security** and performance are the highest priority. Coupled with Cogent's high speed bandwidth, we give you the best value in the industry. Our committed customer support and local provisioning teams ensure maximum **reliability**.

Bandwidth Services

Cogent's IP Transit & Ethernet transport connectivity

Gigabit Ethernet	100 Mbps - 1 Gbps
10 Gigabit Ethernet	500 Mbps - 10 Gbps
100 Gigabit Ethernet*	10 Gbps - 100 Gbps

*In select facilities

Features

Cogent Data Centers provide the features you need

Flexible Rack Configurations	Redundant Power
Fire Detection / Suppression	Access Control
Temperature / Humidity Control	Local Support

Highly Connected

Cogent's network is one of the most pervasive and interconnected in the world, with over 3,321 On-Net locations and direct connections to more than 8,098 other networks worldwide. Cogent owns and operates 78 data centers throughout North America and Europe.
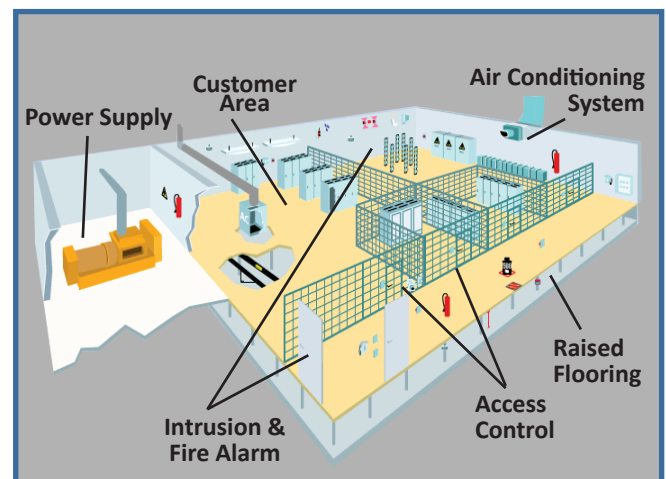

Secure Infrastructure

Cogent Data Centers provide secure access, controlled by cameras and biometric hand scanners. Uninterruptible Power Supply (UPS) and backup generators keep your services running when grid power fails, making Cogent Data Centers a perfect fit for disaster recovery and data backup.

Reliable Service

Our customers include premier businesses such as financial institutions, application & content providers, and hosting companies – all of which demand stable, uninterrupted service. Our Customer Support Engineers are available 24x7x365 and answer your calls in less than 25 seconds. Local support and online account management provide individual assistance and anytime access, regardless of time zone.

Utility Computing

Don't worry about ordering and setting up your own servers, just use Cogent's. Our Utility Computing product provides you with dedicated servers designed for high bandwidth output, tailored to your application or content delivery platform.
